EVERYBODY'S DOCTOR,

By ROBERT A. GUNN, M. D.

Everybody's Doctor contains 684 octavo pages and is printed on fine paper handsomely bound. It is sold at the low price of three (\$3) dollars a copy, so as to bring it within the reach of all.

The work differs from all other books on Domestic Medicine in having the diseases systematically arranged, according to their classification. Everything is described in the plainest possible language, and the prescriptions are written out in plain English, so that they can be employed by any intelligent reader.

Druggists will find this book of great advantage in aiding them to give advice when asked to do so.

Dentists will find much information in it that will prove valuable to themselves and their patients.

Teachers will be better prepared for the performance of their duties in the school room by studying it.

Parents will find it a reliable adviser in everything relating to the rearing of their children.

Every family can save fifty times the price of the book every year, by consulting it.

It is complete in all its parts, and is the most recent book of the kind published.

The book will be sent free by mail or express on receipt of three dollars.

TO THE CITIZENS OF RENO.

I HAVE BEEN A RESIDENT OF YOUR town for the past years, and outside of my own business I have not seen a decent pair of boots that were made here. In order, therefore, to extend to everyone facilities for obtaining really first-class boots and shoes, I have sent to San Francisco for two A. No. 1 mechanics, the best to be found in the country, and shall run (as heretofore) a prime first-class shop. This enlargement of my stock and facilities will entail every extra expense, and I look and trust, therefore, to Reno's citizens, and all the people generally desirous of obtaining the very best of workmanship, to aid me with their increased patronage. First-class material, first-class workmen and first-class work, at living rates, is the motto of my coat of arms, as inscribed on the banner floating from my mast, "I will be satisfied." Respectfully,
H. F. PAVOLA.

REDUCTION OF RAILROAD FARES.

The California Railroad Commissioners have passed the Humphreys schedule reducing fares on the Central and Southern and their leased lines in California. The reductions are quite important in many instances, and are very good for a starter. The new schedule fixes the fare from Lathrop to Merced at \$2 30, reduced from \$4, a difference of \$1 70; from Lathrop to Fresno, \$4 50 reduced from \$7 85, a difference of \$3 35; from Lathrop to Hanford, \$6 40, reduced from \$11 10, a difference of \$4 70; from Lathrop to Summer, \$8 80, reduced from \$15 40, a difference of \$6 60; from Lathrop to Los Angeles, \$18 40, reduced from \$23, a difference of \$4 60; from Mojave to Goffs, \$12 55, reduced from \$27 20, a difference of \$14 65; from Los Angeles to Yuma, \$13 80, reduced from \$22, a difference of \$8 20; from South Vallejo to Calistoga, \$1 70, reduced from \$2 50, a difference of 80 cents; from Woodland to Tehama, \$4 10, reduced from \$7, a difference of \$2 90; from Roseville Junction to Redding, \$6 10, reduced from \$9 75, a difference of \$3 65; from Marysville to Redding, \$4 65, reduced from \$7 75, a difference of \$3 10; from Sacramento to Colfax, \$2 15, reduced from \$4 75, a difference of \$2 60; from Sacramento to Truckee, \$6 10, reduced from \$10, a difference of \$3 90; from Sacramento to State line \$7 25, reduced from \$11 50, a difference of \$4 25. The reduction between Sacramento and Truckee to \$6 10 and to the State line to \$7 25 will be a great benefit to the people of Nevada, who can take advantage of it, and thereby make the trip from Reno to San Francisco, including sleeping car and other extra expenses for less than \$15. The fare from Reno to Truckee is \$2 75; add the \$6 10, and from Reno to Sacramento it amounts to \$8 85, as against \$12 75, the fare now charged or about \$4 loss. The distance from Reno to the State line is 16 miles. Say the Company charged \$1 60, to which add \$7 25 and we have again the \$8 85 to Sacramento. But there is no ticket office at the State line, so to get the benefit of the reduction, the proper way will be to buy from Reno to Truckee, and then from Truckee to Sacramento. At Sacramento a traveler has his choice of first or second class rates, and he can use his own pleasure. At second class prices he can get to San Francisco from Reno for \$10 35. The railroad company would gain the friendship of this section by making the rate from Reno to San Francisco an even \$10, or at least giving round trip tickets for \$20. Such a rate would be fair to the railroad and perfectly satisfactory to the people.

It is stated on good authority that the Committee of Iroquois Club which had been sent to New York to secure the next Democratic Convention for Chicago, have already received such assurance in the East as to justify them in the belief that the object of their visit has been practically accomplished. It is understood the Visiting Committee have given the friends of Tilden assurance that the Illinois delegation will favor the renomination of Tilden.

The Washington Critic makes a very grave accusation against President Arthur. It asserts that the President pays \$18 a gallon for whiskey for his own use, while he sets before his guests whiskey of an inferior though still excellent quality which costs only \$15 a gallon.

It is rumored that delegates to the New Hampshire Legislature from Portsmouth, who have thus far voted as a whole for Rollins, will break for Wm. E. Chandler, should the ex-Senator's strength fall below 100 on any formal ballot during this week.

A WEEK'S BUSINESS VACATION.—Business is shaping for the approaching holidays. The Produce Exchange will take a full week for its recess, commencing with July 1st. During this interval there will be a sort of clearing up of accounts preparatory to the new cereal year. The San Francisco Grain Exchange will content itself with a recess from June 30th to July 5th. The San Francisco Stock Board will take a similar vacation. It is probable that the Pacific Exchange will follow the example of its older rival. The Mint is now closed, and will not be reopened until July 6th. Most of the employees of that institution are enjoying their annual rest. Those connected with the machinery department are still on duty, as the occasion is seized to overhaul and make necessary repairs. The Custom House has let off some of its employees for a brief respite. The clerks in banks, insurance and other public offices are given vacations in turns through the summer months, and some are now off, while others will go next month. Business men are supposed to be generous with their employees in this particular, and they probably lose nothing by the pleasant custom. The half holiday on Saturday is becoming popular all over the country.—Bulletin.

OUR PRISON LABOR.

The Austin Reville very properly objects to convict labor coming into competition with free white labor. But its article treating the subject is not correct in many of its conclusions. We quote:

In Nevada our State convicts make shoes and boots principally, and up to the present administration at a loss. But a great many boots and shoes were turned out, and every pair thus made deprived an honest shoemaker somewhere of just that much work. The honest man would have made money on each boot or shoe made, while the State lost money all the time. Under Mr. Bell's Wardenship the boot and shoe establishment will pay, but it does not answer the objection already urged. True, every cent he makes over and above expenses will be that much saved to the State, but at the expense of the shoemakers. Why should they be thus taxed to save the mass of the people? The stone quarry is a different matter. It does not enter into competition with honest laborers like the other does and therefore should be advanced. Over in California they have been trying for a long time to find something to manufacture that will not compete with other California industries and have finally hit upon making paper bags. They manufacture several other things but this is the chief pursuit. In Pennsylvania they make saddles for the same reason. For Nevada to continue to make boots and shoes is therefore an injustice to the hard-working shoemakers of Nevada, who cannot hope to successfully compete with labor which does not cost a cent.

The Nevada convicts are employed in the manufacture of boots and shoes more for the purpose of keeping them employed at doing something than with any hope of the State making much of a profit out of them at that work. Under the most favorable circumstances but a very slight profit can be made, and the State would no doubt quickly abandon the prosecution of work in that line if the convicts could be employed at anything else. But there is nothing for them to do in the stone quarry. There is no sale for the stone after it is taken out and out; at best it is so inconsiderable as to amount to a trifle in comparison with the labor one hundred convicts are capable of performing. It will not do to permit the convicts to remain unemployed, and outside of the boot and shoe business there is not a thing they can do at Carson. So long as the Prison remains at Carson the taxpayers must expect the present condition of affairs to continue, and will be compelled to foot the yearly bills of \$50,000. This is a State proposition, and the Journal makes these assertions without any unkind feeling toward Carson. The expenses of the Prison can be materially reduced, but never at Carson. It will always require about so many officers and guards there, and all supplies must be purchased in the future as in the past. Gov. Bradley was right in desiring the removal of the Prison to Reno, and the expenditure of \$50,000 to complete the work mapped out here, would eventually result in saving twenty times that sum to the taxpayers. At Reno seven guards would do the work now performed by the thirteen at Carson, and may be one or two officers could also be dispensed. At Reno there is a chance for the convict labor to be utilized, even without coming into competition with free labor, and if it did nothing else but to farm the State's land, and produce the necessary produce supplies for the institution, there would be more profit in it for the taxpayers than the boot and shoe or stone business at Carson. This work could be dovetailed in with the Asylum labor, to the benefit of both institutions. But here at Reno the water power of the Truckee would enable the manufacture of certain articles not injurious to free labor, and yet profitable to the State in the proportion of three to one in comparison to what is possible or probable at Carson. The advantages of the change are plainly perceptible from any standpoint. There is not a taxpayer in the State who has given the subject an hour's careful study but has made up his mind that the removal should be effected, and the sooner that it is done the better for the State.

The Government saves yearly \$281,000 salaries and \$50,000 office expenses by the consolidation of the Internal Revenue districts.

An exchange remarks that "Nevada may one day be famous for her great singers." That paper is behind the times. Nevada acquired fame twenty years ago through the wonderful melody of the "Washoe canary." Visitors to the land of sagebrush have often been entranced by the strange, weird and powerful waves of music that rolled over the desert wastes at the declining hour of day, and died away in soft cadences through the canyons of the distant hills. Nevada is indeed the land of song, as well as of assessments.—Bee.

Useful in the Family. We usually leave it to doctors to recommend medicines, but Parker's Ginger-Tonic has been so useful in our family in relieving sickness and suffering that we cannot say too much in its praise.—Salem Argus.

The youthful color, beauty and lustre are gradually restored to gray hair by Parker's Hair Balsam.

FACTS AND NEWS.

Washington tailors say the right arm of nearly all men of note are from one to two inches larger than the left, all on account of hand-shaking.

There are people in Richmond buying up Confederate bonds. They pay as much as \$4 for \$1,000, and one house—Thomas Branch & Co.—is said to have bought over \$20,000,000 of these "securities."

Next to Texas, Wyoming is probably the greatest stock growing region in the United States. It is said that about one million cattle are now feeding upon its plains, the estimated value of which is about \$30,000,000.

Assuming that the immigration of 1883 will equal that of 1882 and 1881, these three years, it is estimated, will give us not less than a quarter of a million of German farmers and mechanics, and over \$50,000,000 of German money.

An Iowa man boasts that his first child was born in the Territory of Michigan, the second in the Territory of Wisconsin, and the third in the Territory of Iowa, and all in the same house and spot; so did the name change under successive divisions.

The Sierra Bates mine, at Sierra City, California, is undoubtedly the best managed mine in the State. For fourteen years, during which time the present company has owned the property, there has been a monthly dividend declared regularly.

It having been demonstrated that Utah can produce the finest strawberries in the world, large fields will be set out this Fall, and the cultivation of this luscious berry entered into on a more extensive scale. The crop has not been a failure in that Territory in the past ten years.

The California Immigration Association has effected arrangements with the Southern Pacific Railroad for low rates to emigrants from Europe to California. Via New Orleans; through rates from Amsterdam will be \$74 35; Antwerp, \$72 25; Cologne, \$74; Paris, \$68; Zurich, \$75 85, and from other European points equally low rates.

Gov. Buller says the light of science is just dawning; the best way to govern men is yet to be discovered, and the best way to feed them is unknown. Hereafter science and mechanical work will govern the world in peace or war; the mechanical engineer will have his throne in the universe to make it proceed hereafter.

Small herds of buffalo have appeared recently in the Yellowstone Valley, and attract the special attention of tourists traveling over the Northern Pacific. A band of a dozen magnificent animals last week roamed with the train west of Miles City, and, being overhauled, three of them were secured by rifleman firing from the cars.

An erroneous impression prevails that General Sherman, on the retracy of General Sheridan, will become General of the Army. He cannot be so promoted. He will discharge the duty heretofore incumbent on General Sherman, but will not receive the salary of the office nor wear its rank. By law the titles of General and Lieutenant General cease when either rank becomes vacant.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw-lyr.

Good for Babies.

With a baby at breast nothing is so useful for quieting my own and baby's nerves as Parker's Ginger Tonic. It prevents bowel complaints, and is better than any stimulant to give strength and appetite.—A Newark Mother.

Osburn & Shoemaker have just received from the manufactory in the East a large lot of Royal St. John Sewing Machines, which they are selling at prices below what other sewing machines can be sold for, as they get them directly from the manufactory and pay no middle-men profits. These are fast becoming the leading machines. Call and see them.

The most healthy and popular drink of the season is the ice cold soda water, sparkling with purest gas and flavored with true, delicious fruit syrups, to be had only at Queen's soda fountain.

The best known remedy for coughs and colds is the Infalible Cough Mixture prepared by Osburn & Shoemaker.

Hon. W. E. Price was down from the south end yesterday.

Vacation for the public schools will be for two months.

The Russell-Bergman suit is on trial in the District Court.

Capt. T. G. Taylor came down from the Comstock last night.

Nels Hammond will leave to-morrow for the Walker Lake Reserve.

Wm. Merrill and J. P. Pouls were down from Verdi yesterday.

Five prisoners in jail—one white woman, two squaws, and two men.

George W. James, Pastor of the M. E. Church at Eureka, is in town.

R. L. Fulton and wife departed for the Bay last night on the delayed train.

W. H. Joy, Lieutenant of the Guard at the State Prison, was in Reno yesterday.

The Grand Prize Mining Company has levied an assessment of 25 cents per share.

The jury in the Hoffman-Bosch case rendered a verdict for plaintiff for \$150 damages.

Senator Marker came down from Washoe yesterday. He is still nursing his pet arm.

Secretary of State Dornier came down from the Capital last night. He returns this morning.

Cook and Schneider are taking views of prominent buildings. The JOURNAL building was photographed yesterday.

Supt. Bishop's figures show that the cost for maintenance of the insane for May averaged 96 4-10 cents per capita per day.

Two trips per day are being made on the N. & O., and Schooting and Bragg are getting their lumber and wood into market right lively.

The Paradise Valley Mining Company has declared a stock dividend of one share for every five held. This is probably a distribution of stock taken in for non-payment of assessment.

John Pascoe and John Ormpbell, two experienced civil and mining engineers, who have been out examining copper mines in Esmeralda county, returned last night and continued on to San Francisco.

Asylum Contracts.

The Board of Commissioners for the Care of the Insane met at Carson yesterday to award the contracts for the ensuing term. A. Lindley & Co. again got away with the contract for groceries, etc., for the ensuing six months, and R. P. M. Kelly was awarded the contract for supplying beef. The bid of J. F. Aitken and the Reno Lumber Co. was exactly the same for furnishing wood, and it was decided to divide the business between them for the next year.

Train Behind Time.

The west bound Overland did not arrive in Reno on time at 8:30 last night, being delayed until 1:15, on account of some detention to the Union Pacific train, which failed to connect at Ogden on time.

TO BE UNIFORMED.

Train Men in Blue—Work for the Tailors.

The Sacramento Bee says the Central Pacific Railroad Company has issued an order requiring all conductors and baggage masters, and also the brakemen on passenger trains, to wear uniforms.

All first-class roads in the East require train men to wear uniforms. It is a convenience in the interest of the public, making it easy to determine who are employees in case information or assistance is desired. Employees will be at liberty to have their clothes made where they please, at their own expense, of course, and are expected to be in uniform as soon as practicable, it being the desire of the company to have them all wearing blue early in July.

Monogram brass or gilt buttons will be furnished the force by Division Superintendents upon application.

The instructions say that the cloth must be of suitable texture, dark or blue navy cloth. In summer employees on the Southern Pacific may substitute blue flannel suits. Caps must be of the same color, railroad style, bell crowned, flat top, cloth or leather visor, with a small "C. P." on each side.

The caps of conductors have a band an inch and quarter wide with gilt braid of suitable width at the top and bottom of the band. Other men must have a gilt braid at the center of the band.

Conductors, baggage men and passenger train brakemen must wear on the front of the cap metal or gilt embroidered badges designating the position of the wearer. The coat for passenger conductors will be a frock, double-breasted, with rolling or flat collar, with an outside pocket at the right hand or near the waist seam for the punch. Other pockets can be placed in the breasts or skirts behind and at the sides over the hips. There will be four large "C. P." buttons on each front, four on the skirts, two at the waist seam, two below the bottom of the pocket lapel, and two small ones on each cuff.

Freight conductors and baggage men will wear a single-breasted business sack coat, rolling collar, with five or six buttons on the right side, outside pockets at side near the hips, and one at the left breast. The vests for all will be single breasted, with straight or standing collar, five or six small buttons on the right side, and pockets as usual.

The pantaloons for all will be of the same color, and according to the taste of the owner. Freight train brakemen will not have any uniform. The uniform of baggage masters, passenger train brakemen and freight conductors will be exactly alike, except that the conductor's cap will be different, or like that of a passenger conductor.

RUMORED INDIAN OUTBREAK.

What Chief Naches Says About It.

The rumor afloat last week that the settlers in Harney valley are afraid of an Indian outbreak proves to be true. It is reported from Baker City, Oregon, that the settlers fear a raid from the Bannocks and Warm Springs Indians.

Naches says the principal chiefs of the Bannock tribe were at Winnemucca at the fandango, and promised him faithfully to keep the peace and said if they went on the war-path inside of five years he could cut off their heads. He said that Lee Winnemucca is with Ochoco's Indians, and he is confident that they are not on the war-path; so it must be the Warm Springs Indians, with possibly some renegades from other tribes that are frightening the people of Harney valley. Some Piutes are now hunting in the vicinity of Disaster Peak, near the Oregon line, and Naches and others may join them next week and ascertain what the trouble is at Harney and Warner valleys.

Automatic Railway Alarm.

The Carson Tribune says Frank Clifford, at present confined in the Nevada State Prison for robbery, has just obtained through Dewey & Co.'s Patent Agency, a patent for an Automatic railway alarm to be used at crossings; and it consists in a mechanism attached to the locomotive, preferably between the cylinder and the first driver, consisting of a revolving hub, provided with peculiar forked arms, which, by coming in contact with posts placed suitably upon the side of the track, are turned to revolve a disk, furnished with an eccentric groove, in which a stud upon the end of a pitman, connected through intermediate devices with the steam-whistles travels. There is a peculiar hand connection to operate the whistle. The object of this invention is to prevent accidents at points where roads cross the railway track and this is done by sounding an alarm, which, by reason of the operating mechanism, is not dependent upon vigilance of the engineer, but is automatic in its operation.

Attention.

All the members of the Reno Guard who wish to take part in the 4th of July celebration at Virginia City are ordered to meet at their Armory this evening, at 8 o'clock sharp, in full uniform, for street parade.

T. F. LATROCK, 1st Lieut. comd'g.

NEVADA INCORPORATIONS.

California's Capitalists Incorporating Under Laws of Nevada—The Oppressive Regulations of California.

"Pennington" writes to the Carson Tribune an unusually newsy lot of "reflections." Among others he says this about some incorporations:

Last week six mining companies were organized in this city by three residents of California. The companies were incorporated under the laws of Nevada, and Carson is designated as the principal place of business.

The purpose for which these companies are organized are to acquire, purchase, locate, patent, lease, sell, or otherwise dispose of, and to mine, drill, operate, develop, own, hold, maintain, and deal in lands and real property, and any and all interests therein, in the State of Nevada and California and elsewhere, containing asphaltum, bitumen, naphtha and petroleum oils and other kindred substances, and to produce, reduce and sell all such and kindred substances.

The capital stock of each company is \$50,000 and the incorporators are Harry L. Tevis, son of Loyd Tevis, Gordon Blauding, Tevis' son-in-law, and Sherwood T. Gorman, son of George C. Gorman, the prominent politician.

Mr Blauding explained the fact that residents of California find it to be advantageous to incorporate in Nevada, by saying that the laws of California are absolutely oppressive of all kinds of corporations, and that he and his associates found that it would in the long run pay them to make the trip to Nevada, incorporate here and do all their business in this State, under our more liberal laws.

Several prominent business men with whom I have talked on this subject look upon this as the beginning of a big movement that will bring some of the most wealthy corporations of California to Nevada, and thus put thousands of dollars into the pockets of our citizens. The probable way will be for the companies to surrender their California charters and reincorporate here. Even if this be not done, there is a probability of many new companies taking the benefit of Nevada's more advantageous statutes.

The Great Northwest.

The great increase in travel to the Northwest, has forced the "Famous Albert Lea Route" to put upon its line magnificent Dining Cars, in which passengers will be served meals second in quality to no first-class hotel, for the small sum of seventy-five cents each.

The Chicago, Rock Island & Pacific Railway, which controls this route, has always maintained a reputation for giving travelers first-class meals on its Dining Cars, and in putting on this line the same class of cars, it fills a want that the traveling public will appreciate.

"The Albert Lea Route," is carrying a very large share of the Northwestern travel, and, although early in the season, has commenced to sell tourists tickets to the various pleasure resorts in a volume sufficiently large to guarantee an immense summer traffic.

A Grand Ball.

During the session of the Grand Lodge of the Knights of Pythias, which will be held at Eureka the beginning of August, a grand invitation ball will be given by the members of Beattie Lodge.

The Leader of last Monday, says: "There will be about seventy-five delegates from other lodges present, all of whom, with members of our local lodge, will attend the ball in full uniform. A meeting of the Knights was held at the office of Fitzgerald & Beatty yesterday, when it was decided to make this the grandest party ever given in this State."

Fast Time to be Made Overland.

The Chicago and Northwestern Railroad proposes to make the run between Council Bluffs and Chicago in fifteen and one-half hours, provided it meets the views of the Union Pacific and Eastern connections. This will decrease the time between San Francisco and New York twenty-four hours, with the reduction in the schedule to go into effect July 1. An important reduction of time will be made for third class passengers over the continental roads. The time between New York and San Francisco will now be seven and a half days, instead of eleven and a half, as before.

Farm Hands Wanted.

From Geo. Alt, Rufus Kinney, H. M. Frost, and other farmers in town yesterday, the JOURNAL learns that the farmers in this section need help badly, and that one hundred men will be given employment upon application. The wages paid are from \$40 up to \$50. Here is a chance for those who want work.

BEAUTIFUL WOMEN

MISCELLANEOUS.

Home Comfort.

After a Rainy Ride a Country Physician Tells What He Thinks of Some People.

"I wish to gracious some people would learn when they need a doctor and when they don't," exclaimed Doctor E., as he entered his house in a cosy little village in the interior of the State of New York, after a tedious night ride of many miles. "I have been down among the mountains to see a man, who the messenger said, was very sick and not likely to live till morning, unless he had immediate help; and found him suffering from a sharp attack of colic, which his family might have relieved in ten minutes, if they had a grain of sense and two or three simple remedies in the house. But no, they must remain ignorant as pigs and when the least ache or pain takes them, send for a doctor, whether they ever pay him or not."

"Why, Doctor, what kind of simple remedies, as you call them, do you expect to keep in the house?" asked his wife, as she poured him a cup of hot tea.

"In this case," answered the Doctor, "if they had only put a BENSON'S CAPSINE POROUS PLASTER on the man's stomach, he would have been all right in an hour, and saved me a dreary ride."

In all ordinary complaints it cures at once. All diseases are eliminated from the system by what may be roughly called expulsion or extraction, or by a union of two processes. Benson's Plaster promotes both. It incites the torpid organs to act, and sends its healing, soothing influence through the myriad pores of the skin. All other plasters oblige the patient to wait. They give him hope for to-morrow. Benson's Plaster gives him help to-day. When is better, do you think? Buy the CAPSINE and keep it in the house. Price 25 cents.
